

# WEDDINGS

BY LOMAS TRAVEL

A large, square LED dance floor is the central focus, composed of many small, illuminated tiles that create a shimmering, pixelated effect. The floor is set in a dimly lit club or event space. In the background, several people are visible, some standing and others sitting, adding a sense of activity and social atmosphere. The lighting is warm and ambient, with some brighter spots from the floor's LEDs reflecting on the surrounding surfaces. The overall mood is festive and modern.

Includes all service charges, taxes set up and tear down

A photograph of a beach wedding setup at dusk. In the foreground, a large, rectangular dance floor made of wooden planks and covered with white vinyl is laid out on the sand. The floor is highly reflective, mirroring the sky and the surrounding scene. To the left of the dance floor, there is a round table covered with a white lace tablecloth, topped with a floral centerpiece and a circular sign. To the right, another table is partially visible, also covered with a white tablecloth. In the background, the calm sea meets a sandy beach, with a line of palm trees on the distant shore under a cloudy, twilight sky. The overall atmosphere is serene and romantic.
